CERTIFICATES

JNCIP-SP (2021)
CCNP Enterprise (2019)

Aysel Məmmədova

Senior Network Engineer · IP Core & Transport

Ten years designing and running carrier IP networks. Led the BGP and OSPF redesign of a national mobile backbone and the 5G transport rollout across three regions. Team lead for four engineers since 2022.

EXPERIENCE

Network Design Lead 2019 – now
National mobile operator, Bakı

- Redesigned the IP core with BGP route reflectors and OSPF areas.
- Led 5G transport: segment routing over MPLS, 1,200 sites.
- Automated changes with Python and Ansible; outages down 40 %.
- Team lead for four engineers; hiring and mentoring.

Senior Network Engineer 2016 – 2019
Regional ISP, Sumqayıt

- Ran the BGP edge with 14 upstream and peering partners.
- Migrated the access network to IS-IS and MPLS L3VPN.

Network Engineer 2014 – 2016
Telecom integrator, Bakı

- Configured Cisco and Juniper routers for enterprise customers.

EDUCATION

BSc Computer Engineering 2010 – 2014
ADA University, Bakı

PROJECTS

5G transport rollout 2021 – 2023
Program lead

- Three regions, 1,200 sites; segment routing; on time and on budget.

Backbone BGP redesign 2019 – 2020
Architect

- Route reflectors, communities and RPKI; convergence under 2 s.

TRAINING

Juniper Service Provider Routing (JNCIP-SP) — 2021
Python for network engineers — 2020
Leading technical teams — 2022
